Introduction

This Tax Expenditure Report lists the major reductions to the County's property tax revenue stream pertaining to Tax Credits, Tax Deferral, and Tax Exemptions. Although the authority to extend these programs to eligible taxpayers is provided for in State Law, where applicable, County Law is listed as well.

The report lists each tax credit and tax deferral program separately and provides for a detailed description, legal reference that authorizes the County to issue the program, the effective date of each program, contact information, and fiscal impact showing the amount and, where possible, the number of recipients. The annual impact is shown by levy year, which covers the period July 1st through June 30th. For example, levy year 2009 covers the period July 1, 2009 through June 30, 2010 (i.e., fiscal year 2010).

Note: Eligibility for the majority of credits is determined by the Maryland State Department of Assessments and Taxation (SDAT). Specifically, SDAT determines whether a property is a "principal residence" (i.e., owner-occupied) which makes the property eligible for the County's largest tax expenditures: (i) homestead credit, and (ii) local income tax offset credit. Moreover, the computation of many credits is performed by SDAT (e.g., homestead credit, homeowners property tax credit, senior credit), with only a minor portion of the credits computed by the Department of Finance, Treasury Division.

If you have any questions or comments regarding this document, please contact Mr. Michael J. Parent in the Department of Finance, Division of Treasury by phone at (240) 777-8931 or by email at michael.parent@montgomerycountymd.gov. You may also submit questions or comments in writing by addressing them to:

Supplemental Homeowner's Property Tax Credit

Description

The program provides tax credits for homeowners who qualify on the basis of their household income as compared to their tax bill. The Maryland's Homeowner's Property Tax Credit (HOTC) program and its Montgomery County supplement are administered by the State Department of Assessments and Taxation (SDAT). The tax credits are granted to eligible homeowners of all ages. The County supplemental credit pertains only to County property taxes. Although this credit does not require a separate application, taxpayers must apply for the State HOTC to be considered for the supplemental tax credit. Generally, applications must be made by September 1 to be applicable for that tax year, although taxpayers who are at least 70 years of age, may submit retroactive applications for the current and 3 prior levy years at any time.

Effective levy year 2005, Montgomery County greatly enhanced the program by (1) doubling the maximum property assessment amount used for computing the tax to \$300,000, and (2) changing the income formula to allow for eligibility at a higher income level. Due to changes in the State HOTC credit program in levy year 2006, qualified retirement savings are now excluded from the maximum \$200,000 net worth requirement (this net worth also excludes the value of the principal property).

SDAT in Baltimore, MD at (800) 944-7403

Fiscal Impact:

<u>Levy Year</u>	<u>Amount (\$)</u>	<u>Recipients</u>
2009	1,985,796	2,980
2008	3,163,965	4,805
2007	2,929,265	4,822
2006	3,223,950	4,704
2005	4,541,533	5,121
2004	557,228	2,884
2003	484,764	2,511
2002	676,176	2,950
2001	744,496	3,347

Note: Since SDAT does not provide amount of Senior Credit (see next page) but includes it with the Supplemental Homeowner's Tax Credit, the amounts shown for 2007 - 2009 are estimates.

Senior Tax Credit

Description

The County introduced this credit in levy year 2007 for eligible residents at least 70 years of age. This credit is calculated as 25 percent of the combined State Homeowners' Tax Credit and County Supplement. This credit, if applicable, is added to the County Supplement and reduces the taxpayer's tax bill. The Senior credit may be based on (i) the State credit (if the County Supplement is zero), (ii) the County Supplement (if the State credit is zero), or (iii) both the State credit and County Supplement. Although this credit does not require a separate application, taxpayers must apply for the State HOTC to be considered for the senior tax credit.

Fiscal Impact:

<u>Levy Year</u>	<u>Amount (\$)</u>	<u>Recipients</u>
2009	293,633	1,763
2008	467,845	2,842
2007	433,133	2,852

Note: Since SDAT does not provide amount of Senior Credit but includes it with the Supplemental Homeowner's Tax Credit (see previous page), the amounts shown are estimated as 25% of the combined Supplement + Senior Credit for the eligible recipients.

Homestead Property Tax Credit

Description

To assist homeowners with the fiscal impact from large assessment increases, the Homestead Property Tax Credit program limits the annual taxable assessment increase to a rate set annually by county resolution between 1% and 10%. This program is administered by the State Department of Assessments and Taxation (SDAT) and applies only to owner-occupied residential dwellings. Note: this credit is not applicable in the first year following the purchase of a new home.

The State of Maryland, Montgomery County, and municipalities in Montgomery County (with the exception of the Town of Kensington which elected to set the rate at 5%, effective LY 2006) use a 10% homestead credit which results in any annual assessment growth in excess of 10% to become a credit. For example, if the annual phase-in of assessment growth is 25%, the homestead credit will reflect 15% while the remaining 10% is reflected in taxable assessment growth that year.

In addition to limiting annual growth in taxable assessments for homeowners, the homestead credit spreads out the assessment growth over a longer period of time resulting in a stable revenue flow. Since the cumulative credit can be significant, some taxpayers may still observe growth in their taxable assessment during times of weak real estate market conditions as prior year growth is still being phased in.

Property Tax Credit – Local Income Tax Offset

Description

The County may grant, by law, a property tax credit against the county tax imposed on real property, in order to offset, in whole or in part, increases in the county income tax revenues resulting from a county income tax rate in excess of 2.6%.

This tax credit is available only to the owner of an owner occupied residential property (i.e., principal residence), as determined by SDAT. The County establishes the amount of a property tax credit under this section by Resolution.

Note: The County's "piggyback" income tax was 60% of the Maryland income tax (effectively 3.00%) in tax year 1998, and changed to a 3.20% income tax rate based on Maryland Adjusted Gross Income (AGI) effective tax year 2004. Therefore, prior to tax year 2004, the credit could be based on income tax revenues resulting from a county "piggyback" income tax in excess of 50% of the Maryland income tax.

Enterprise Zone Tax Credit

Description

This tax credit is designed to spur economic growth and is available to businesses that locate in designated areas of downtown Silver Spring, Takoma Park/Long Branch, and Wheaton. This real property tax credit is available only for nonresidential properties located within the Enterprise Zones and is based on growth in property assessments. Under the Enterprise Zone law, personal property is not included. The “base year assessment” is the real property assessment for the year before any new construction or refurbishing is done. The credit is based on the increase in the assessment for each of the next 10 years compared to the base-year. The credit will be awarded on the actual taxes that result from the increase in assessment, using the following schedule:

Years 1 through 5:	Credit = 80% of assessment increase versus the base year
Year 6:	Credit = 70%
Year 7:	Credit = 60%
Year 8:	Credit = 50%
Year 9:	Credit = 40%
Year 10:	Credit = 30% (expires thereafter)

The State of Maryland also grants a tax credit for businesses that locate in Enterprise Zones. However the State’s credit is for State income taxes and is related to the number of new employees (in the Enterprise Zone) that a business hires.

Arts and Entertainment District Tax Credit

Description

This tax credit is available to a taxpayer against the County property tax imposed on a manufacturing, commercial, or industrial building that is located in an Arts and Entertainment District and is wholly or partially renovated for use by a qualifying residing artist or an arts and entertainment enterprise. This real property tax credit applies for 10 years, providing the building continues to be used by a qualifying residing artist or an arts and entertainment enterprise. The tax credit is based on growth in property assessments. The “base year assessment” is the real property assessment for the year before any renovation is done. The credit is based on the increase in the assessment for each of the next 10 years compared to the base year assessment. The credit itself will be given on the actual taxes that result from the increase in assessment. Except for properties allowed an Enterprise Zone Tax Credit, the amount of the Arts and Entertainment District Tax Credit shall be calculated as follows:

Years 1 through 5:	Credit = 80% of the assessment increase versus the base year.
Year 6:	Credit = 70%
Year 7:	Credit = 60%
Year 8:	Credit = 50%
Year 9:	Credit = 40%
Year 10:	Credit = 30% (expires thereafter)

For properties allowed an Enterprise Zone Tax Credit, the amount of the Arts and Entertainment Tax Credit is 20% as calculated above, added to the Enterprise Zone Credit.

New Jobs Tax Credit

Description

This program consists of the New Jobs Tax Credit and the Enhanced New Jobs Tax Credit, and benefits businesses that are planning to increase both their space and staff. A business seeking either credit must notify the County of its intent to claim the credit *before* the expansion.

New Jobs Tax Credit

This is a six-year credit available to businesses that increase their space by at least 5,000 square feet and their employee count by at least 25 new jobs. Businesses that are already resident in the County or that are moving from outside of Maryland are eligible to apply. The credit is not available to businesses that move to Montgomery County from another Maryland county or Baltimore City, and it is not available to retailers. The 25 new jobs must be permanent full-time positions and must last for at least 24 months. The new space must be occupied during the period the business retains the 25 new employees. The credit is based on the increase in both real and personal property tax assessments resulting from the business's expansion. The credit decreases over six years, as follows:

Years 1 and 2: Credit = 52% of tax attributable to the assessment increase

Years 3 and 4: Credit = 39%

Years 5 and 6: Credit = 26%

New Jobs Tax Credit recipients receive an additional State of Maryland tax credit, which uses the same calculation method. However, the State credit is given against one of the following taxes and requires that the recipient file a Form 500CR with their State of Maryland Income Tax return:

- Corporate or personal income taxes
- Financial institutions franchise tax
- Insurance premiums tax

Enhanced New Jobs Tax Credit

This 12-year credit benefits large expansion projects and is available when businesses either:

1. Increase their space by at least 250,000 square feet, and *either* (A) create 1,250 new permanent, full-time positions *or* (B) create 500 new permanent, full-time positions in addition to retaining at least 2,500 existing permanent, full-time positions, OR
2. Expend at least \$150 million to obtain at least 700,000 square feet of new space and employ at least 1,100 individuals, with at least 500 being in new, permanent, full-time positions.

The company must pay all these employees at least 150% of the federal minimum wage.

To qualify for the Enhanced New Jobs Tax Credit, a business must be engaged in one of the following industries:

- Manufacturing, mining, transportation, communications, agriculture, forestry or fishing
- Research, development, testing or biotechnology
- Computer programming, data processing, or other computer-related services

- Central financial, real estate, or insurance services
- Operation of central administrative offices or a company headquarters
- Public utility, warehousing, or business services

A business has six years from the notification date to create and fill the required number of new jobs and acquire and inhabit the new space. When this is accomplished and the business files a completed application, the business will begin receiving the credit. The Enhanced Tax Credit, like the regular New Jobs Tax Credit, is given against the local real and personal property tax and is based on the amount of additional taxes due as a result of the expansion. Unlike the regular New Jobs Tax Credit, however, the Enhanced Tax Credit is calculated at the same rate for all 12 years. The rate is 58.5% of the additional local tax liability.

The State also will give a credit based on this additional local tax liability. The State credit is 31.5% for each of the 12 years and is given against the same State taxes as the regular New Jobs Tax Credit (corporate or personal income taxes, the financial institutions franchise tax, or the insurance premiums tax). Both the regular and enhanced State tax credits allow a business to “roll” the credit for up to five years. This means that if the State tax credit is higher than the amount of taxes due in any given year, the business can claim the difference for up to five years. Both tax credits also contain a “recapture” provision that requires a business to repay the credits if they fail to maintain the job and space requirements for three years. This provision is applicable to each individual year, so that if a business maintains the requirements for 14 years, it will have to repay only the last year of the credit.

Brownfields Property Tax Credit

Description

The County must allow a tax credit of 50% of the increased Property Tax Liability (the increase in the property tax levied on a Qualified Brownfields Site resulting from an increased assessment due to a voluntary cleanup or a corrective action plan for the Site), for a Qualified Brownfields Site, for each of the 5 tax years immediately following the first revaluation of a Qualified Brownfields Site after completion of a voluntary cleanup or corrective action plan.

The County must allow a credit equal to an additional 20% of the increased Property Tax Liability for a Qualified Brownfields Site, if the site is in an Enterprise Zone, or in a neighborhood designated by the County Council for participation in the Neighborhood Business Development Program under state law.

A recipient of the property tax credit under this article is no longer eligible if the recipient of the property tax credit withdraws from the voluntary cleanup program under Section 7-512(A) or (B) of the Environment Article of the Maryland Code; or the Maryland Department of the Environment withdraws approval of a Response Action Plan or a Certificate of Completion under Section 7-512(E) and (F) of the Environment Article of the Maryland Code.

Conservation Land Tax Credit

Description

Conservation land is defined as real property that is used to assist in the preservation of a natural area, used for the environmental education of the public, used to promote conservation generally, or used as a sanctuary for wildlife. Conservation land is subject to a perpetual conservation easement donated to a land trust on or after July 1, 1991; or acquired by a land trust by July 1, 1991, owned in fee by that land trust; and subject to a letter of intent, agreement, or option agreement to convey the property to a government agency. The owner of conservation land may receive a tax credit equaling 100% of any county real property tax imposed on the conservation land, not including any improvements.

Historic Preservation Tax Credit

Description

This tax credit may be granted against the County real property tax, based upon the amount expended by a taxpayer for restoration or preservation of an historic property. A property must be an historic site designated on the master plan for historic preservation, or within a historic district designated on the master plan for historic preservation.

A tax credit will be allowed only for work which is the subject of an approved historic area work permit; or for ordinary maintenance expenses, when the amount expended exceeds \$1,000.00. A credit will be approved for exterior work only, and no credit shall be granted for new construction.

The amount of the credit is equal to 10% of the amount expended by the taxpayer for the restoration or preservation of an historic property, up to the amount of County real property taxes. The credit shall be allowed for the tax year immediately following the work or any portion thereof is completed, and any unused portion of this tax credit, may be carried forward for up to 5 tax years, after which the credit lapses.

Tax Credit for Property Leased by Religious Organizations

Description

This tax credit is granted against the County real property tax, for that portion of property that is leased, occupied, and used by a religious organization exclusively for public religious worship, educational purposes, or office space necessary to support or maintain public religious worship or educational purposes.

In order to be eligible for the tax credit, an application must be filed with the Montgomery County Division of Treasury by the first day of April, preceding the tax year in which the credit is to be used.

Tax Credit for Day Care Provider

Description

A taxpayer may receive a tax credit against the County real property tax for an improvement on real property, if the improvement is used exclusively for day care services (a registered family day care home, a licensed child care center, a licensed day care center for the elderly, or a licensed day care center for the medically handicapped). Likewise, a taxpayer may receive a property tax credit against the County real property tax for an improvement on real property owned by a business with at least 25 employees, if the improvement is used exclusively for day care services (e.g., a registered family day care home, or a licensed child care center).

The credit is limited to the lesser of (1) \$3,000.00; or (2) the amount of the General County and Special Service Area property taxes attributable to the improvement.

A taxpayer must apply for the tax credit with the Montgomery County Division of Treasury by April 1, to receive the credit in the next taxable year.

Property Tax Credit – Fire Sprinkler Systems

Description

A taxpayer may receive a one-time real property tax credit against the General County tax for any detached single-family dwelling unit, and any attached dwelling unit or multi-family building in which a fire sprinkler system was not legally required to be installed, if an approved complete automatic sprinkler system that is used for fire protection is installed on or after July 1, 2000.

The tax credit may not exceed the lesser of (1) the total cost of installing the sprinkler system; or (2) 50% of the General County property tax attributable to the dwelling unit or building.

A taxpayer must apply for the tax credit in the year the sprinkler system is installed to receive the credit in that tax year or the following tax year.

Tax Credit for Spouse of Fallen Law Enforcement Officer or Rescue Worker

Description

The tax credit is 100% of the County real property tax on the dwelling of a surviving spouse (who has not remarried), of a fallen law enforcement officer or fallen rescue worker, if:

- 1) The dwelling was owned by the fallen law enforcement officer or fallen rescue worker at the time of their death; or if
- 2) The fallen law enforcement officer or rescue worker or the surviving spouse was domiciled in the State as of the date of the fallen law enforcement officer's or rescue worker's death, and the dwelling was acquired by the surviving spouse within 2 years of the fallen law enforcement officer's or rescue worker's death; or if
- 3) The dwelling was acquired after the surviving spouse qualified for a credit for a former dwelling under 1) or 2) above, to the extent of the previous credit.

Application for the tax credit should be submitted to the Division of Treasury by April 1, to receive the tax credit for the next taxable year.

Tax Credit - Home Computer Telecommuting Incentive

Description

An employer may receive an annual tax credit against the County personal property tax for the purchase of a new home computer or new laptop computer to establish a new off-site employee workstation, if the computer is purchased after December 31, 2005. The amount of the tax credit must not exceed 50% of the cost of each new computer. The aggregate tax credit allowed for a taxpayer, in any tax year, must not exceed \$2,000.00.

The Department of Finance must grant each tax credit in the order in which the Department receives the applications for the credit.

The amount of credits allowed in each calendar year must not exceed:

- 1) \$100,000 in 2006
- 2) \$175,000 in 2007
- 3) \$250,000 in 2008

Starting in 2009, the total amount of credits allowed in each future year, must be set by the County Council, if the Council takes no action the amount allowed for the prior year also applies to that year.

An employer is eligible for and must apply for the tax credit within 12 months after a new computer purchase, and the credit must be applied in the tax year of the purchase, or the following tax year. The employer must show that:

- 1) The computer will be used for telecommuting.
- 2) Affirm that the employee works at home at least 78 days per calendar year.
- 3) Document the date of purchase and the cost of the computer.

Property Tax Credit – Nonprofit Swim Clubs

Description

A nonprofit swim club is eligible for a real property tax credit against the General County tax and Special Service Area taxes, provided it uses its facilities exclusively to provide a recreational outlet for a local community. In the year for which the credit is applied, the nonprofit swim club must provide the County with documentation that shows it is a nonprofit entity, and must certify to the county that its facilities are used solely for the purposes stated. The required documentation to receive the tax credit is as follows:

- 1) A copy of its Articles of Incorporation
- 2) Current Certificate of Good Standing from the State of Maryland

Property Tax Credit – Energy and Environmental Design

Description

This tax credit, introduced as the “Green Building” tax credit, may be granted against the General County real property tax and Special Area taxes, based upon a building achieving one of ten qualified ratings for energy efficient buildings. The following are qualified ratings according to three rating systems: “*LEED-CS*” means the Leadership in Energy and Environmental Design - Core and Shell rating system administered by the US Green Building Council (USGBC), “*LEED-EB*” means the Leadership in Energy and Environmental Design - Existing Building rating system administered by the USGBC, and “*LEED-NC*” means the Leadership in Energy and Environmental Design - New Construction rating system administered by the USGBC. Also qualifying is a building that achieves an energy and environmental design standard that the Director of the Department of Permitting Services finds is equivalent to a gold or platinum rating from the USGBC for LEED-NC, LEED-CS, or LEED-EB. The credit is granted against the county taxes as follows:

For a covered building, which is defined as a newly constructed or extensively modified non-residential or multi-family residential building that has or will have at least 10,000 square feet of gross floor area:

- A) 25% of the property tax owed on the building for 5 years, if the building achieves a gold rating for LEED-NC or LEED-CS or an equivalent standard; or
- B) 75% of the property tax owed on the building for 5 years, if the building achieves a platinum rating for LEED-NC or LEED-CS or an equivalent standard;
- C) 10% of the property tax owed on the building for 3 years, if the building achieves the gold rating for LEED-EB or an equivalent standard; and
- D) 50% of the property tax owed on the building for 3 years, if the building achieves the platinum rating for LEED-EB or an equivalent standard.

For any other building, the amount of the credit is:

- A) 25% of the property tax owed on the building for 5 years, if the building achieves a silver rating for LEED-NC or LEED-CS or an equivalent standard;
- B) 50% of the property tax owed on the building for 5 years, if the building achieves a gold rating for LEED-NC or LEED-CS or an equivalent standard;
- C) 75% of the property tax owed on the building for 5 years, if the building achieves a platinum rating for LEED-NC or LEED-CS or an equivalent standard;
- D) 10% of the property tax owed on the building for 3 years, if the building achieves the silver rating for LEED-EB or an equivalent standard;

(E) 25% of the property tax owed on the building for 3 years, if the building achieves the gold rating for LEED-EB or an equivalent standard; and

(F) 50% of the property tax owed on the building for 3 years, if the building achieves the platinum rating for LEED-EB or an equivalent standard.

The tax credit must be applied for within 1 year of the building being certified as a high energy performance building.

Annual Limits: during any fiscal year the total credits granted to:

- (A) All buildings under this Section must not exceed \$5 million.
- (B) Buildings that achieve a silver rating or equivalent standard must not exceed \$1.5 million; and.
- (C) Buildings that achieve a gold rating or equivalent standard must not exceed \$2.5 million.

The Finance Department must grant the credits in the order in which it receives complete applications. A complete application that, if granted would cause any of the limits listed above to be exceeded, must be granted in the next fiscal year or years based on the order in which the Department of Finance received the application.

Property Tax Credit – Renewable Energy (Renewable Energy Devices)

Description

An owner of an owner-occupied residential property who installs a solar or geothermal device may receive a real property tax credit against the County tax on the property. The credit is limited to the lesser of:

- 1) 50% of the eligible costs of the system, or
- 2) \$5,000 for a device to heat or cool a structure; \$5,000 for a device to generate electricity in a structure; \$1,500 for a device to provide hot water in a structure.

Any Geothermal or Solar energy device must meet safety and performance standards set by a nationally recognized testing laboratory for that kind of device, in order to receive the tax credit. In order to receive the tax credit, a taxpayer must submit a completed application to the Montgomery County Department of Finance. The application must:

- 1) Demonstrate that the taxpayer is entitled to the tax credit
- 2) Include a certification from the Montgomery County Department of Permitting Services, indicating that the device is a qualifying solar or geothermal device, and has been properly installed. The Department of Permitting Services must accept a certification by another government agency, including a municipality, which certifies that the device has been properly installed.

The initial annual funding for this credit was \$250,000 in 2008, but increased by \$150,000 on December 10, 2009 (Bill 39-09). As a result, during any fiscal year, the total credits granted under this Section, for geothermal or solar devices, must not exceed \$400,000. Credits must be granted in the order in which the Department of Finance receives completed applications. Any completed application received after the \$400,000 limit has been reached in the current fiscal year must be granted in the next fiscal year or years based on the order in which the Department of Finance received the application. The amount of credit issued in any tax year must not exceed the amount of County property tax levied on the property in that tax year. Any approved credit amount not issued in that tax year may be carried over for an additional two years.

Property Tax Credit – Renewable Energy (Energy Conservation Devices)

Description

An owner of an owner-occupied residential property who installs an energy conservation device may receive a real property tax credit against the County tax on the property. In any fiscal year, the total amount of credit allowed under this section for all conservation devices is limited to \$250 per property.

In order to receive the tax credit, a taxpayer must submit a completed application to the Montgomery County Department of Finance. The application must demonstrate that the device for which a credit is sought is an eligible energy conservation device, defined as a device that reduces the demands for conventional fuels, or increases the efficiency of these fuels; and that the device meets safety and performance standards set by a nationally recognized testing laboratory for that kind of device. An energy conservation device does not include a standard household appliance.

The initial annual funding for this credit was \$250,000 in 2008, but decreased by \$150,000 on December 10, 2009 (Bill 39-09). As a result, during any fiscal year, the total credits granted under this Section, for energy conservation devices, must not exceed \$100,000. Credits must be granted in the order in which the Department of Finance receives completed applications. Any completed application received after the \$100,000 limit has been reached in the current fiscal year, must be granted in the next fiscal year or years based on the order in which the Department of Finance received the application.

Residential Real Property Tax Deferral - General

Description

A taxpayer may defer payment of County property taxes due on residential real property used as the owner's principal residence. The amount of taxes that may be deferred for any one year is the amount that County taxes due exceeds the amount of County property taxes in the prior taxable year. Taxes that are eligible for deferral are the General County and Special Service Area taxes. A taxpayer is eligible for a deferral if:

- 1) The gross income or combined gross income of all individuals who actually reside in the dwelling did not exceed \$120,000 for the preceding calendar year; and
- 2) The owner, or at least one of the owners, must reside in the dwelling as their principal place of residence, and must have done so for at least 5 years.

Interest accrues on the deferred taxes at a rate set annually by the County that does not exceed the prime lending rate. The annual interest rate set by the County applies to any tax deferred that year, regardless of the year when the tax was first deferred (i.e., the new interest rate is applied to all deferred taxes). The accumulation of deferred taxes and accrued interest must not exceed 50% of the full cash value of the property. Effective July 1, 2005 (Bill 10-05), the program was modified to (i) remove the inflation adjustment for the prior year tax, (ii) change the interest rate from 9.0% to an annual prime lending rate, and (iii) double the household income limit.

<u>Levy Year</u>	<u>Amount (\$)</u>	<u>Recipients</u>	<u>Interest Rate</u>
2009	0	0	3.25%
2008	0	0	5.00%
2007	0	0	8.25%
2006	0	0	8.25%
2005	0	0	6.00%

Note: The interest rates are the Bank prime loan rates published in the Federal Reserve Board statistical release H.15(519) SELECTED INTEREST RATES. The rates are for the last published day of June and applicable to the levy year starting on the subsequent July 1st (e.g., June 30, 2009 for levy year 2009). According to this publication's footnote #10, the prime rate is the rate posted by a majority of top 25 (by assets in domestic offices) insured U.S.-chartered commercial banks, and is one of several base rates used by banks to price short-term business loans.

Payment in Lieu of Taxes (PILOT) Exemptions

Description

The purpose of the County Payment in Lieu of Taxes (PILOT) exemption is to support affordable housing, which is one of the County's missions. Local governments, when authorized by State Law, negotiate agreements with rental property owners to lower the cost of County real property and special area taxes. In return, a rental property owner commits to provide affordable housing to low-income residents. Following the legal, budgetary, and procedural review of a negotiated PILOT agreement, the County Department of Housing and Community Affairs (DHCA) recommends a PILOT to the Director of Finance for approval. The Department of Finance computes the fiscal impact and, subject to the guidelines and an annual funding limit, either approves or denies the recommended PILOT. This exemption is applied to the real property tax bills once the agreement is executed. The County Council sets the maximum annual funding amount for PILOT programs for a 10-year period only for properties that are not owned or controlled by the Housing Opportunity Commission (HOC).
